

How to use the new Transfer Equivalency System (TES)

TES is an easy and interactive way for students to see how their courses will transfer into STLCC. Students can add previous coursework and AP tests to check degree progress. This is great for giving students the opportunity to check their own classes, without having to wait to receive feedback from the registrar. This DOES NOT replace an official transcript; it is just a way to see how the courses should be transferred once the official transcript is evaluated.
