

# Forest Park Campus Evacuation Plan

The St. Louis Community College-Forest Park campus is currently undergoing construction. During construction, faculty, staff and students should evacuate buildings to the locations on the map marked in red nearest their exit point. Please determine a primary evacuation area and a secondary location in case your primary route is obstructed. If you have questions or concerns, please contact Brad Ziegler, environmental, health and safety manager at [bziegler20@stlcc.edu](mailto:bziegler20@stlcc.edu).
