About the College

Celebrating its 60th anniversary in 2022, STLCC continues to empower students, expand minds and change lives.

Having served more than 1.3 million students, STLCC offers a range of opportunities to meet both student and workforce training needs from a traditional two-year associate degree to certificate and workforce training programs. Courses are offered in high-growth fields such as health care, engineering, hospitality, advanced manufacturing, transportation, biotechnology, and information technology.

- We uplift the community and impact the economy by preparing individuals for the modern workforce.
- For every \$1 invested in their STLCC education, students receive a return of \$5.10 in higher future income over the course of their careers.
- Every \$1 of state or local tax money invested in STLCC returns \$2.40 in benefits.
- STLCC's annual impact on St. Louis is \$2 billion, or approximately 1.9% of the total regional economy.
- STLCC contributes more than \$178 million in taxable income to the Missouri economy each year.
- Compared with high school diploma-holders, associate degree graduates earn, on average, \$10,600 more annually over the course of a working lifetime.
