

## Updating Android after the migration

After your mailbox migrates, you will need to delete and re-add your account on your mobile phone.

Steps	Action
 <p>The screenshot shows the 'Settings' app with 'Accounts and backup' selected. Below it, the 'Accounts and backup' settings page is visible, showing 'Accounts' and 'Backup and restore' sections.</p>	<ol style="list-style-type: none"> <li>1. On your device, go to <b>Settings</b></li> <li>2. Tap <b>Accounts and backup</b></li> <li>3. Tap <b>Accounts</b></li> <li>4. Tap your STLCC email account</li> <li>5. Tap <b>Remove Account</b></li> </ol>
 <p>The screenshot shows the 'Add account' screen with 'Auto sync data' toggled on. Two account types are listed: 'Email' (with a blue dot) and 'Exchange' (with a grey dot).</p>	<ol style="list-style-type: none"> <li>6. Scroll to the bottom, and tap <b>Add account</b></li> <li>7. Tap <b>Exchange</b></li> </ol>
 <p>The screenshot shows the 'Add your email address' screen with input fields for 'Enter your email' and 'Password'. There is also a 'Client certificate' section at the bottom.</p>	<ol style="list-style-type: none"> <li>8. Type in your STLCC email address, and tap <b>Next</b></li> <li>9. Enter your password,</li> <li>10. Tap <b>Manual Setup</b></li> </ol>

	<p>11. Update the server to: <b>outlook.office365.com</b></p> <p>12. Tap <b>Next</b></p>
	<p>13. Tap <b>Ok</b> on the remote security administration message</p>
	<p>14. Tap <b>Activate</b></p> <p>15. Tap <b>Next</b>, and then allow access to anything you want this account to sync to your device</p>
