

Download and install Creative Cloud apps

Follow the instructions below to download, install, and access Creative Cloud Desktop apps on your computer.

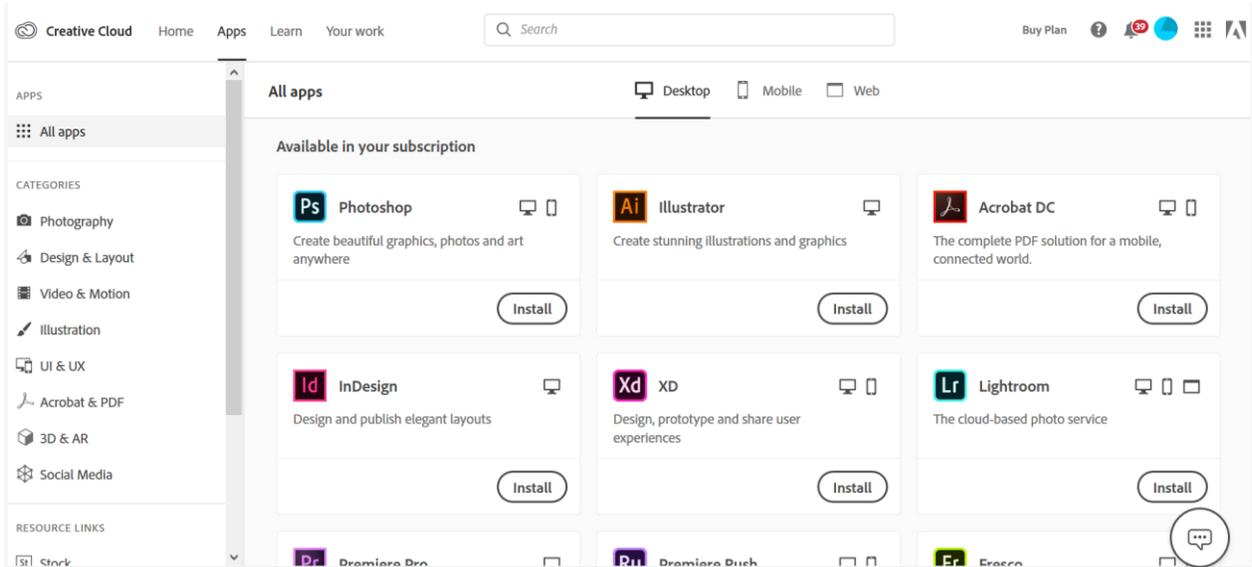

1. Sign in to the [Creative Cloud website](#) using your **my.stlcc.edu ID**

2. To view all apps, click **Apps** on top of the page.

3. Click **Install** for the app you want to download. Then follow the onscreen instructions to complete the installation.

4. Creative Cloud desktop app will automatically install with your first app download. You can also [download it directly](#) here.
5. Once the installer window opens; sign in to your Adobe account with your **my.stlcc.edu ID** credentials. The Creative Cloud desktop app launches automatically and installs your app.
6. To install more apps, click **Install** for the app in the Creative Cloud desktop app.
