Selective Admissions to Practical Nursing (PN) Certificate Program

Rationale: Students who wish to declare a major in some health professions programs must meet minimum criteria in order to apply. Admission to the Practical Nursing (PN) Certificate Program is selective due to availability and limitations of practicum sites and limitations in the number of students who can be accommodated in clinical groups. All students interested in this program should consult a student success advisor at their campus of choice. The PN Certificate Program requires clinical or field experience as part of the curriculum. A criminal background check, drug screen, and documentation of current immunizations are required (at the student's expense) for participation in clinical or other field experiences. Specific criteria for admission are on the second page of this document. For further information visit our website at: www.stlcc.edu/nursing.
